Objective

I am pleased to introduce myself as a candidate for the position of JavaScript Programmer. I have over 1.5 years of experience working as a freelancer, where I have successfully applied my knowledge and skills in various projects.

I have skills in working with React and Node.js, which have enabled me to create modern web applications. I also have experience working with other technologies such as HTML, CSS, and JavaScript, which allows me to create fully functional and aesthetically pleasing websites.

I am committed to working in a team, sharing knowledge and experience, as well as learning on the job. I am willing to put in a lot of effort to achieve common goals and take an active part in project development.

I am confident that my work experience and skills will make me a valuable addition to your team, and I look forward to the opportunity to discuss this position with you in the near future.
